

The room empties. The network should not.

Intro Connect is an online platform that connects guests after the event ends.

Your guests reach the people they meant to follow up with.

THE PROBLEM

You get the right people into a room and they have real conversations. Then everyone goes home, and by Monday it is business cards in a drawer and first names without last names. **The follow up that should happen mostly does not.**

HOW INTRO CONNECT WORKS

- Create the event.** You get a join code and a link. About five minutes.
- Quickly import your list** from a spreadsheet, Eventbrite, or Meetup.
- The directory stays live.** People find each other, message directly, and the room keeps talking.

WHAT YOU GET

- Searchable attendee directory with photos and roles
- Direct messages, scoped to people who shared a room
- Saved contacts with private notes only you see
- Guest list import in one paste
- Invitations sent for you, editable in your words
- Announcements everyone on the event sees
- Sponsor tiles from a pasted URL
- Free agenda builder with Word export

WHO INTRO CONNECT IS FOR

Chambers and business groups

Make membership value visible. Members can point at the people they met at every mixer, all year.

Founder and CEO dinners

The room you curate is the product. Stay at the center of it, and let every dinner compound the last.

Communities and coworking

Recurring events, one living directory. The follow up gap closes once instead of every month.
